

# GASTROPODS

Kingdom: *Animalia* Phylum: *Mollusca* Class: *Gastropoda* ("stomach foot")

Gastropods have either 1 shell or no shell at all. Some live in water, and some live on land.

## PORTRAIT OF A GARDEN SLUG

### INSIDE A LAND SNAIL

- nervous system
- digestive system
- reproductive system
- circulatory system
- excretory system

Muscular system not shown,  
but snails do have muscles!  
You may want to add  
muscles in the foot or  
around the mouth  
and tentacles.

- 1- eye stalks
- 2- tentacles
- 3- radula (teeth)
- 4- mucous gland
- 5- salivary gland
- 6- crop
- 7- nerve ganglion (brain)
- 8- stomach
- 9- digestive gland
- 10- intestine
- 11- kidney
- 12- heart
- 13- "lung"
- 14- air space
- 15- mantle (makes shell)
- 16- gonad
- 17- albumen gland
- 18- exit for sperm
- 19- mucous gland
- 20- dart sack
- 21- exit for eggs
